

“Project: EU4 Energy Transition:
Covenant of Mayors in the Western Balkans and Turkey”

Sustainable Energy and Climate Action for a Resilient City

Draft Agenda

6 July 2022 (Wednesday) @ 10:00 a.m.

Working languages (Turkish/English)/ simultaneous translation

Location: Radisson Blu Hotel Şişli
İstanbul, Turkey

Sustainable Energy and Climate Action for a Resilient City

6 July 2022 @ 10:00 a.m.

Background

GCoM and EU CoM are the largest global alliance for city climate leadership, built upon the commitment of over 10,000 cities and local governments. With nations working towards the goals of the Paris Climate Agreement, cities' involvement could not be more urgent. Signatories share a long-term vision of supporting voluntary action to combat climate change. In this project, EU4 Energy Transition: we are aiming to work together towards a resilient and low-emission society.

Meeting objectives, expected outputs and outcomes

- Present the CoM/GCoM climate resilient cities concept
- Define the SECAP contents
- Understand adaptation and resilience
- Define multi-level Governance Platform Concept
- Actions for municipalities to combat climate change

Participants

The meeting will gather members of Marmara Union of Municipalities who are Global/ European Covenant of Mayors signatory municipalities or would like to join the Global/ European Covenant of Mayors. Project municipalities-observers as other Turkish local governments that are interested to follow the event are also welcomed. Long term national and short-term national experts shall be involved as well.

Practical Information

The meeting will be hybrid: take place face-to-face in Radisson Blu Hotel Şişli in İstanbul and with possibilities to join via Zoom online.

About the project

As a commitment of CoM/GCoM, the municipalities shall reduce their GHG emissions by 40% as of 2030. The signee shall thus prepare a SECAP for this aim where sustainable energy efficiency and climate actions for 2030 and beyond are discussed.
